

## Letter of Recommendation

This is to commend fantastic work done by Mr. Avinash Bhardwaj during his association as a full stack developer with FITology over the span of three months (1<sup>st</sup> May, 2017 to 31<sup>st</sup> July 2017).

Avinash helped us in developing front and back end of a first of it's kind interactive web assessment form to understand an individual's body statistics, his / her state of behavior on overall health and wellness and his / her psychology.

Avinash is one of the best interns we have ever had. He demonstrates all traits of a great employee – willingness to learn, perform the best and constantly innovate. We look forward to doing many more meaningful engagements with Avinash in near future.
