Phone: +91 85275 10313

Summary

I am passionate about the craft of writing code. I have continuously strived to follow standard practice of writing and maintaining software into my work. I am a polyglot and have been part of teams working across the spectrum of Software Engineering from System Design to Deployment. Most of my work can be found at github.com/avinashb98 and github.com/avinash-lala.

Experience

Software Developer

Jun 2018 - Present

LaLa World

Designed and Implemented Logging infrastructure using ELK Stack (ElasticSearch Stack).

Completely revamped the Boilerplate Code for every project in accordance to Standards in Javascript (ES6+) and NodeJs

Re-implemented the Market-Place Bot to support virtually any Strategy on any Exchange. Also, the new design led to improvement on the failure rate from 30% to 2%.

Refactored Existing codebase for Optimised DB Access, Code Readability and Maintainability leading to an overall improvement in the performance (around 250% in some cases).

Responsible for Training Program on NodeJs.

Software Developer Intern

Jun 2016 - Aug 2016

FITology

Designed and Developed the system from scratch with Angular and Firebase.

A half-baked preview of my work can be found at <https://fit-assessment-form.firebaseio.com/>

Education

AJAY KUMAR GARG ENGINEERING COLLEGE, GHAZIABAD

2014 - 2018

Bachelor of Technology, Information Technology

Skills

Node.js • JavaScript • MongoDB • Express • Angular • C++ • ElasticSearch • AWS

Honors & Awards

Code-io-fiesta • CodeChef

Secured 11th place among 123 teams at a Competitive Coding Contest held under the aegis of CodeChef.

Gold Medal in School • International Mathematics Olympiad

Secured 1st rank in school, 72nd State Rank and 252nd National Rank in International Mathematics Olympiad.
